# Subject: Julie Perez

I selected Julie Perez as my subject. She is a friend and co-worker of mine at the University of Miami. The portrait's dimensions are 299X299 pixels and the environmental picture is 640X427 pixels. I selected the University of Miami as the location because this is where we met. She posed in a comfortable sitting position that allowed the portrait to be natural and capture her facial expressions.

Her portrait is a tight headshot that shows her fun and flirtatious personality. When we are around each other we are always laughing and telling stories that would only happen to us. The environmental portrait depicts who she is as a whole. The image subtly tells a story. The business cards sitting on the counter in front and her sitting behind a computer show her position as an administrative assistant. The medal in the background demonstrates her passion for fitness and her personal accomplishment as an athlete. The pictures on the wall gives us an insight on her newlywed status, with pictures of her wedding announcement. Lastly, the cereal box on the side shows her healthy eating goals and lifestyle.
